September, 1865—50th Edition.

PRINCE & CO.,

Linnæan Gardens and Nurseries,

(FOUNDED, 1732.)

FLUSHING, LONG ISLAND, N. Y.

CATALOGUE OF
SELECT STRAWBERRIES.

PERSONS REQUIRING GENERAL INFORMATION ON THE SUBJECT, CAN ADDRESS THEIR APPLICATIONS TO WM. R. PRINCE, WHO HAS LONG MADE THE CULTURE OF THE STRAWBERRY A SPECIFIC OBJECT OF HIS ATTENTION, AND WILL RESPOND WITH PLEASURE TO THE CORRESPONDENCE OF AMATEURS.

All orders should be sent direct by mail. The plants, &c., are all labelled and packed in a superior manner. Strawberry Plants can be packed so as to be sent safely at any season. The best periods for planting, are March and April, and August 20th to November. We puddle roots, and do not loose one per cent. Parcels can be sent by Mail, if desired, at 8 cents per lb. If purchasers do not specify, we send by Mail or Express, the latter in preference. No less than a dozen are sold of any variety, unless otherwise stated in the Catalogue. Persons ordering will please specify the Edition of the Catalogue. Terms, Cash with the order, or collected by Express, on delivery.

Our Catalogues of Fruit and Ornamental Trees, Shrubs, Plants, Grapes, Bulbous Roots, Pæonies, Green House Plants, Seeds, &c., will be sent to applicants who enclose stamps. Also, the Wholesale Catalogue for Nurseries.

NOTE.—All Letters must be plainly headed with Town and State, and be plainly written, accompanied with all necessary directions, &c.

The 200 varieties embraced in our entire collection of STRAWBERRIES, including the newest Foreign Varieties, are fully described in communications from WM. R. PRINCE, in the Patent Office Report for 1861, and in various periodicals. Another elaborate article on the *Fragaria* Family will be found in the Transactions of the American Pomological Society, for 1862; and one more comprehensive will be found in the Transactions of the American Institute.

We, therefore, deem it only necessary here to describe the New Varieties. The public taste has become so awakened to the appreciation of the *sweet, high-flavored and perfumed varieties* of the Strawberry, that such berries as the Wilson, Downer, Austin, Agriculturist, Monitor, Col. Ellsworth, &c., will not be tolerated by persons familiar with good fruit, and the New Varieties presented to us, during the past three years, as Seedlings from the Wilson, very large, but sour and insipid, ought to satisfy every amateur, that when desirous of obtaining sweet and fine-flavored Seedlings, we must select the seed from parents possessing these qualities. We now offer a few of our superior New Seedlings with descriptions, and there is not an acid or inferior one among them. Of the following assortment, 85 of the most estimable varieties, designated by an asterisk (*), were originated in our own Nurseries, and selected from thousands of Seedlings. Several of these have white flesh, and there is not one of them that is not superior in flavor to Russell's Prolific, and to all the Seedlings recently announced. The *American Varieties* possess the advantage of great hardihood and productiveness, and are suitable for field culture. Hermaphrodite Varieties should be grown in rows or hills, but Pistillates may be allowed to cover the entire ground. The latter will require one-tenth of Hermaphrodites to fertilize them, which can be grown in distinct beds, and as these are also fruit-bearing, no space is lost, as has been alleged. If the beds are within 50 feet of each other, the impregnation will be perfected. It is a positive normal fact, based on physical structure, that the Pistillate Varieties of any species of the Strawberry, will produce a crop fifty per cent. greater per acre than the Hermaphrodites can possibly do, as has been fully demonstrated in an article on the Fragaria Family, read before the American Institute, and to be published in their forthcoming Transactions. Any person who ignores the natural existence of Pistillates, furnishes us an evidence of his ignorance of Nature's facts and purposes; and any one who will devote ten minutes to a search in the forest can obtain proof of the fact. In field culture, when planted in rows 2 by 2½ feet, it requires 9,000 plants to an acre. H, denotes hermaphrodites—P, pistillates.

 We invite all Amateurs to inspect our collection at the fruiting season, it being the most extensive, and at the same time the most select one in our country, and unequalled in Europe, and the only one where all the species of the Strawberry family are assembled. Amateurs can here form a correct judgment as to the average size and productiveness of the Varieties, whereas the exhibitions of selected and often of mixed or misnamed berries are deceptive, and result in disappointments. The precision and accuracy in our gardens is such, that we have offered \$100 if one erroneous plant could be found. We refer to Professor Huntsman, our best-informed Amateur, to John W. Chambers, Esq., Secretary of the American Institute, and to the mass who annually visit our Gardens, as to the great superiority of our collection over all others, and as to its systematic arrangement. We caution the public against such acts as have been practised with the Bartlett and others, by giving new names to old varieties; by selling Lennig's White under *three names*, as if distinct, and also forcing on the public such comparatively poor varieties as will be found named in the Rejected List, annexed hereto.

NORTH AMERICAN VARIETIES.

	per doz. \$ cts.	per 100 \$ cts.	per 100 \$ cts.
1. Abington , H, (Kohl) seedling, from the Wilson.	30	1 50	
Admiral Dundas, Rejected.			
Ambrosia, Rejected.			
2. Agriculturist , H, very large, soft, no sweet ness or flavor. <i>neps</i> Deemed unworthy by Prof. Huntman and every other reliable amateur...	1 00	4 00	20 00
3. Amateur , (Pain), P, large, crimson, richly productive.	50	2 00	
4. Augustine , P, very , very large, crimson scarlet, good flavor, exceedingly productive.	1 00	4 00	
5. Austin, or Shaker , H, (Iowa,) very large, richly productive.	35	1 50	
Bantlett, proved to be Boston Pine			
6. *Beatrice , H, large, obovate, scarlet, sweet, high flavor, plant vigorous.	1 00	4 00	
7. *Bersilla , H, very large, light scarlet, good flavor, good flavor, richly productive.	1 00	4 00	
Black Pine, Proved by Pom. Society			
8. Boston Pine , H, crimson, grown in rows	25	1 00	10 00
9. Brooklyn Scarlet , H, large, obovate, sub-acid flavor	50	1 50	
10. Buffalo , P. Many sold under this name have proven to be an old variety.	50	1 50	
Burns New Pine, weak, poor bearer.			
Rejected.			
Chilian, see <i>Newland</i>.			
Col. Ellsworth, very acid.			
Cutter's Seedling, or Dancer, Rejected			
11. Crimson Favorite , H, large, obovate, good flavor...	35	1 50	
12. *Diadem , P, (Iowensis,) very large, obovate, scarlet, pleasant flavor, remarkably richly productive for all purposes, exceedingly productive.	50	2 00	10 00
Downer's Prolific, very acid. Rejected.			
Early Scarlet, small, superseded.			
13. Eclipse , P, conical, crimson, early, showy market berry.	25	1 00	7 00
Emma, burns badly. Rejected.			
14. *Eureka , P, a new, fine seedling, large, regu- lar cone, light scarlet, beautiful, firm, sweet, very juicy, highest flavor, excellent, very pro- ductive.	1 50	6 00	

Change, excellent flavor

	per doz. \$ cts.	per 100 \$ cts.	per 1000 \$ cts.
Fillmore , no sweetness or flavor, large core. Rejected.			
15. *Fontenelle , P, new, very large, rounded, light scarlet, juicy, fine flavor, productive	1 00	4 00	
16. *Fredonia , H, very large, obtuse cone, splendid, large trusses, sweet, juicy, fine flavor, firm, very productive, suitable for market.	1 00	4 00	
17. *Fragrant Scarlet , P, conical, high flavor, productive	25	1 00	10 00
18. French's Seeding , H, rather early, large, crimson, rounded or obovate, showy, quite acid, productive, ripens 8 days after the Welcome.	35	1 25	8 00
19. *Gazelle , P, very large, light scarlet, round, juicy, good flavor, very vigorous	1 00	5 00	
20. *Geraldine , rather large, obovate, bright scarlet, juicy, very sweet, exquisite flavor	1 00	5 00	
Gen. McClellan , a synonyme			
21. Gen. Garibaldi , (Burgess) H, large, obtuse cone, crimson, crimson flesh, acid, soft, slight flavor.	35	1 50	
22. Gen. Scott , (Burgess) H, same character as preceding.	50	2 00	
23. Gen. Lyon , H, (Burgess) same quality as above.	50	2 00	
Georgia Mammoth , miserably acid. Rejected.			
24. *Globose Scarlet , P, (lowensis) very large, often 4 inches in diameter, orange scarlet, beautiful, acidulate flavor, very productive, vigorous and hardy.	50	2 00	
Golden Seeded , unproductive. Rejected.			
Green Prolific , see <i>Newark Prolific</i> .			
Honneur de Belgique . Rejected.			
Hooker , H, tender, often winter-killed.			
25. Howey , P, character well known.	25	1 00	5 00
26. Howey's Pine , H, very large, oblong, deep scarlet, fine flavor	50		
27. *Imperial Crimson , P, large, crimson, sweet, firm, fine flavor, very productive, suitable for market	50	1 50	8 00
28. *Imperial Scarlet , P, large, bright scarlet, sprightly, firm, clean, don't rot, productive, suitable for market.	25	1 00	6 00
29. Iowa or Washington , H, superseded by Pistillate varieties far more productive.	25	1 00	
30. Jenny Lind , H, character well known.	25	1 00	6 00

	per doz. \$ cts.	per 100 \$ cts.	per 1000 \$ cts.
31. Ladies' Pine , (Canada,) P, small, round, pale scarlet, white flesh, very sweet, exquisite flavor.....	30	1 50	
32. Ladies' Favorite , H, new seedling, light scarlet, white flesh, double the size of the preceding, most exquisite flavor, vigorous and hardy.....	1 00		
33. Ladies' Aromatic , P, new seedling, combining the same exquisite sweetness and flavor as No. 31, but double the size, vigorous.....	1 00		
34. Hadly Finger , H, large bright scarlet, showy, grown for the Philadelphia market.....	25	1 00	6 00
35. Lawrencea , P, large, crimson, sweet, juicy, fine flavor, vigorous and very productive, suitable for market.....	1 00	4 00	12 00
La Perle , valueless: Rejected.			
35½ Leed's Prolific , early, medium size.....	35	1 50	10 00
36. Le Baron Pine , H, large, conical, crimson; sweet, delicious flavor. A sparrous red variety is in some gardens.....	35	1 50	
37. Lowens' White, Albion White, or White Pineapple , H, very large, round, white, with pink tinge, white flesh, buttery, high flavor, excellent, very hardy and vigorous; must be grown in hills.....	40	2 00	
37½ Longworth's Prolific , H, (Iowensis,) well known.....	25	1 00	
38. Malvina , P, white flesh, a splendid seedling of the Hovey, same size, but earlier.....	25	1 00	7 00
39. McAvoy's No. 1 , often called Extra Red, P, (Iowa,).....	25	75	5 00
40. McAvoy's Superior , P, character well known.....	25	75	5 00
41. Melanie , P. (Iowensis,) large, deep scarlet, beautiful, excellent flavor, very productive.....	1 00	4 00	12 00
42. Meade's Seedling , P, medium, light, scarlet, conical, sweet, high flavor.....	50	2 00	
Monitor , acid, inferior.			
Nero , very acid, worthless.			
43. Newark Prolific, or Green Prolific , (Boyden,) P, large, scarlet, rounded, beautiful, fair flavor, juicy, very productive, a showy market berry.....	50	2 00	
44. Newland or Chilean , H, medium to large, conical, deep scarlet, very sweet, rich, juicy, excellent, long bearing, firm for market.....	38	1 50	

	per doz. \$ cts.	per 100 \$ cts.	per 1000 \$ cts.
45. * Ophelia , H, large, splendid, rounded, compressed, sweet, a seedling of Scarlet Magnate, and its best fertilizer.....	50	2 50	12 00
Orb , tender, winter kills.....			
46. * Primate , H, rather large, deep scarlet, very firm for market, very productive.....	25	1 00	7 00
47. * Prince's Large Climax , P, bright scarlet, conical, splendid, sweet, excellent flavor, very productive.....	1 00	4 00	20 00
48. * Prince's Scarlet Excelsior , P, very large, deep scarlet, sweet, high flavored, very productive.....	1 00	4 00	20 00
49. * Prince's Late Globe , P, (Iowensis,) large, bright scarlet, ripening ten days after the main crop; very valuable as a late market berry.....	1 00	4 00	12 00
49½ * Prolific Iowa , H, large, conical, bright scarlet, good flavor, productive.....	50	2 00	10 00
Ridgewood , inferior. Rejected.			
50. * Rosina , H, new, large, round, light scarlet, sweet, juicy, excellent.....	2 00		
51. Russell's Prolific , (Iowensis,) P, large, obtuse, conical, scarlet, acid, rather soft, juicy, good flavor, often hollow, productive.....	50	1 25	
52. * Scarlet Prize , P, very large, rounded oblate, bright scarlet, estimable.....	1 00	4 00	
53. * Scarlet Magnate , P, the heaviest and most solid berry for market carriage, bright scarlet; an admirable market fruit, surpassing Hovey in average size.....	50	1 50	9 00
54. Stewart , H, (Iowensis,) esteemed for market in Maryland, where nine-tenths are of this variety.....	50	2 00	12 00
55. * Sultana , H, early, very large, light orange scarlet, white flesh, sweet, fine flavor; plant very productive, vigorous, very hardy.....	1 00	4 00	12 00
56. * Suprema , P, (Iowensis,) early, large, sprightly flavor, very productive.....	1 00	4 00	12 00
57. * Trevirana , P, large, sprightly flavor, estimable.....	50	2 00	12 00
58. * Terpsicore , H, early, large, conical, bright scarlet, beautiful, sweet, good flavor, firm for market; vigorous.....	1 00	4 00	12 00
Triomphe de Gand , see Pine Strawberries.			
Trollope's Victoria and Union . These are identical and unproductive.....			

	per doz \$ cts.	per 100 \$ cts.	per 1000 \$ cts.
59. * Valencia , H, conical, early, large, deep scarlet, excellent flavor, productive.....	50	2 50	12 00
60. * Victorine , H, (Iowensis,) early, very large, conical, bright scarlet, juicy, very good, firm and showy for market, very productive, vigorous	1 00	4 00	12 00
61. * Welcome , H, the greatest acquisition yet made as an early berry; large, bright scarlet, beautiful, sweet, fine flavor, firm, don't rot, always clean; plant very vigorous, every flower perfects a berry. It is the earliest and most valuable market berry, and destined to supersede all other early berries; far superior to Jenny Lind and French's Seedling in all points, and produces double the quantity per acre. . . .		10 00	50 00
62. Wilson , H, character well known; produces only two thirds as much as the productive Pistillates.....	25	75	5 00

English, French and Belgian Varieties.

	per doz. \$ cts.	per 100 \$ cts.
<p>These are all of the Pine family (<i>Fragaria Grandiflora</i>) up to No. 132, and the most of them are of Belgian origin, and of a much more hardy character than the English varieties, which have been heretofore introduced and discarded. They produce very large and beautiful berries, with white, and some with rosy flesh, and are remarkable for their sweetness, exquisite flavor and perfume. The <i>Triomphe de Gand</i> has become most generally known, but there are numerous varieties greatly superior to it in sweetness and flavor. Being of Tropical parentage, the Pine family require a warm location, a strong, rich soil, and to be cultivated in rows or stools, and kept free from runners. They are well worthy the special attention of amateurs. All these are Hermaphrodites.</p>		
101. A Rietmeyer , (Jonghe,) very large, ovate, vermilion; flesh salmon, exquisitely sweet.....	1 50	
102. Bicton White Pine , large, beautiful, poor bearer.....	50	
103. Bonte de St. Julien , (Carre.) medium size crimson, conical, sweet, very juicy, excellent flavor; plant very hardy, productive.....	38	2 00
104. Caroline, Rosy White , large, beautiful, very productive, fine flavor	1 00	
105. Carolina Superba , (Kitley.) very large, orange scarlet, splendid; flesh white, very high flavor, late; hybrid Chili.....	50	
107. Delices du Palais , (Nicaisse,) round, glossy crimson, sweet, extremely perfumed, delicious.....	1 50	
108. Deptford White or Excelsior , white with blush tinge, long cone, variable form.....	38	2 00

	per doz. \$ cts.	per 100 \$ cts.
109. Duke of Cambridge , (Stewart & Neilson,) splendid, large, conical, bright scarlet; flesh rosy white, sweet, high flavor.....	1 50	
110. Duchesse de Beaumont , (Lorio,) large, glossy red, rosy flesh, sweet, perfumed flavor.....	1 50	
111. Emily , (Myatt,) monstrous, bright rosy, white flesh, fine, flavor; hybrid Chili. \$2 for six.		
112. Empress Eugenie , (Knevet), monstrous, deep red, ovate or coxcomb, flesh red, very sweet, exquisite perfumed.....	50	2 00
113. Filbert Pine , large, oblong cone, scarlet; white flesh, solid, exquisite, the climax in flavor. \$2 for 4 plants.		
114. Frogmore Late Pine , (Ingram,) monstrous, largest of all, superior flavor, brilliant crimson, very beautiful; very juicy, rich, perfumed. Remarkable plant for the size of its foliage, flowers and fruit. \$2 for four plants.		
115. Jucunda Pine , very large, beautiful, conical, some variable, bright red; flesh rosy, firm, sweet, juicy, excellent flavor. The most vigorous and hardy of all the Pines, and produces abundantly in all soils and situations. It greatly surpasses the <i>Triomphe de Gand</i> in vigor, and in excellence and the quantity of the crop in field culture. The foliage never burns, and the plant is never injured by winter.....	50	3 00
116. Jung Bahadoor , (Nicholson,) large, obtuse cone, crimson; flesh rosy, sweet, delicious.....	1 00	
117. La Constante , (Jonghe,) regular cone, large, bright crimson; flesh rosy, sweet, exquisite flavor, late, burns considerably.....	50	2 00
118. La Delicieuse , (Lorio,) large, orange scarlet, yellow flesh.....	75	2 50
119. La Sultane , (Nicaisse,) large, high flavor.....	1 00	
120. Lorio , (Lorio,) earliest of all Pines, ripe June 5th, with the earliest scarlets, continues three weeks; very large, brilliant scarlet, long cone, compressed; flesh rosy, very sweet, perfumed; very hardy and vigorous. An estimable family berry.....	2 00	
121. Lucas , (Jonghe,) very large, obtuse cone, bright crimson; flesh rosy white, juicy, sweet, very rich, most delicious flavor.....	1 00	
122. Margueritte , (Lebreton,) monstrous, oblong form, glossy red; flesh orange, sweet, high delicious flavor..	40	2 50
123. Napoleon III. , (Gloede,) monstrous, splendid, bright rosy; flesh white, sweet, very high flavor, late. A true Chili. \$2 for six.		

	per doz. \$ cts.	per 100 \$ cts.
124. Ornement des Tables , (Soupert,) very large, obovate, orange scarlet, splendid, very sweet, delicious perfume; beautiful foliage.....	2 00	
125. Oscar , (Bradley,) large, conical or coxcomb, crimson, very sweet, high aroma; vigorous.....	35	2 00
126. Prince Imperial , (Graindorge,) early, moderate size, glazed red; flesh rosy, sweet, good.....	50	2 50
127. Princesse Fred. William , (Niven,) rounded, bright scarlet; flesh rosy, firm, sweet, high flavor.....	40	2 00
128. Princesse Royale , (Pelvilian,) large, conical, deep scarlet, acidulate; hardy and vigorous; highly esteemed at Paris for preserves.....	50	2 50
129. Scarlet Rock , large, round, very sweet, delicious, vigorous, very hardy.....	1 00	4 00
130. Sir C. Napier , large, vermilion, beautiful, white flesh, excellent.....	50	
131. Triomphe de Gand , character well known, inferior to other Pine varieties in sweetness and flavor, and in productiveness.....	25	1 00
(Per 1,000, \$5 to \$6.)		
132. Wizard of the North , (Robertson,) conical, large, crimson, sweet, good flavor; productive, hardy and vigorous, suited for field culture.....	30	2 00
☛ See Rejected Pine Varieties, pages 11 and 12.		

CHILI STRAWBERRIES.

The peculiar character of this family is the great vigor of the plants, large foliage, and strong petioles and peduncles, all of which are downy or hairy, and flowers often the size of a dollar; the later ripening of the fruit, after the Pines; the monstrous and variable size of the berries white flesh, highly perfumed, very juicy, sweet and delicious; and, in some varieties, a sprightly, acidulate flavor commingled with the sweetness. They make but few runners, and being therefore scarce, we supply them only to special Amateurs. All these are Hermaphrodite.

NOTE.—There is not one plant of the true Chili varieties for sale by any other Nursery in the Union, and we shall confine our sales solely to Amateurs.

133. **Chili Crimson**, the original, monstrous, variable form, pleasantly acidulated flavor. For four, \$1.
134. **Chili Bright Roseate**, very large, very high flavor, glossy, deep green foliage. Per pair, \$2.
135. **Chili Bright Orange**, yellowish flesh, very sweet, perfumed. Per pair, \$2.
136. **Chili Rosy Orange**, very large, perfumed, exquisite. Per pair, \$1 50.
137. **Chili Brilliant Rosy**, large, round, sweet, and pleasantly acidulated. For four, \$2.
138. **Chili Monstrous Vermilion**, splendid, sweet, aromatic. Per pair, \$2.
139. **Suprema**, orange scarlet, delicate, high flavor. For four, \$1 50.
140. **Vilmorin**, very large, crimson, exquisite flavor. For four, \$1 50.
141. **Chili Deep Crimson**, firm, juicy, sweet, delicious. For four, \$2.

HAUTOIS STRAWBERRIES.

This class possesses a high musk flavor, for which they are greatly esteemed. It is called, "The Real Amateurs' Strawberry." All are Hermaphrodites, except one Male or Staminate, which should be planted with any that are defective in stamens, in the proportion of one to ten. All are brownish dull red.

	per doz. \$ cts.	per 100 \$ cts.
151. Belle Bordelaise , exceedingly productive, excellent flavor, produces an autumnal crop, if irrigated.	35	1 50
152. Bijou des Fraises , conical, the climax of exquisite flavor.	1 00	
153. Menstrous Hautbois , large, round	1 00	
154. Male Hautbois , very strongly staminate.....	50	2 00
155. Prolific Hautbois , if irrigated, produces second crop.....	35	1 50

EUROPEAN WOOD STRAWBERRIES.

These are all perfect Hermaphrodites, the berries are small, with a peculiar flavor; they are profuse bearers, and much esteemed.

156. European Red Wood, or Alpine Wood. Per 1,000, \$3.50....	25	75
157. European White Wood. Per 1,000, \$4....	25	75
158. Montreuil Red Wood , largest and finest of its class, rare....	50	2 00
159. Green Pineapple, or Alpine , juicy, musk flavor, delicious, aromatic, peculiar, ripens late, much esteemed.....	50	1 50

ALPINE MONTHLY, OR QUATRE SAISONS.

These belong to the same family as the European Wood, and the fruit is similar in size and flavor; but these are ever bearing. All are perfect Hermaphrodites.

161. Alpine Monthly Red	25	75
162. Alpine Monthly White	25	75
163. Gloire de Nancy , red.....	50	
164. Gloire du Nord , red.....	75	
165. La Neudonaise , lettuce-leaved, large, red, few runners.....	1 00	
166. Perpetuel de Poitou , red.....	75	
167. Versailles , red, large, estimable.....	75	
168. Alpine Monthly Red Bush , Gaillon rouge.	50	
169. Alpine Monthly White Bush , Gaillon blanche.....	50	

ORNAMENTAL.

170. Indica or Yellow Flowering , very ornamental, flowering and fruiting throughout the year. Ten plants for 50 cents.		
--	--	--

WHOLESALE PRICES—DEDUCTIONS FOR LARGE QUANTITIES.

For 50 plants of any variety, the price will be $2\frac{1}{2}$ times the price named for a dozen.

A Wholesale Catalogue will be sent to Nurseries. By the 1,000 or 10,000, the price for standard varieties, assorted, will be \$4 to \$6 per thousand, or ten per cent. lower than any other advertised prices.

Assortments.—For \$10 we will supply 100 plants each of as many kinds as amount, by this Catalogue's prices, to \$12.

For \$20, we will supply 100* plants each of as many leading kinds as amount, per Catalogue, to \$25.

Any assortments offered by other venders for \$5 and \$10, up to \$50 and \$100, we will supply for the same amount, and *will add 10 per cent. in fine plants, gratis*, but purchasers can make much better selections from our most extensive collection.

The permanent rule will be, in regard to this and all other Fruits, to price them as low, and usually much lower, than obtainable elsewhere.

 The postage on Strawberries will be about five to eight cents per dozen, according to the vigor of the different varieties.

REJECTED VARIETIES OF STRAWBERRIES.

PEONIES—Herbaceous and Tree Varieties.

This magnificent collection comprises over 300 Double flowering Varieties, with a few Single flowering Varieties. They present the most brilliant and gorgeous display of all the flowering plants which adorn our gardens. All the species and varieties are perfectly hardy, and will withstand the winters of Canada. A distinct Descriptive Catalogue will be sent to applicants with very reduced prices.

Chinese Herbaceous Pæonies.—OUR SELECTION.—12 fine varieties, \$3; 12 extra fine, more rare, \$4 50; 25 fine varieties, \$5; 25 extra fine, more rare, \$8.

Ditto in Wholesale Assortments for Nurseries at \$16 to \$20 per hundred, for the plentiful varieties, and others at a liberal discount.

Chinese Tree Pæonies, six varieties, our selection for \$8. Several varieties at \$1 each, and the others more rare at \$2, \$3 and \$5 each.

N. B.—Nearly all these are on their own roots, and not grafted, the latter being very inferior in value, a point on which purchasers should be cautious.
